ID Accessories

HID Global now offers a total solution for your card identity program — from printer/encoders and software to lanyards and strap clips. Our high-quality ID accessories help you create exactly the right ID card presentation. Combining a lanyard with a badge holder, for example, protects your card while providing quick access. Our ID accessories provide choices for convenience, security and durability. And, as with all of our products, you'll get premium quality and reliable customer service.

Lanyards

An easy and attractive way to present your ID or credentials, especially when visual identification is required.

ID Accessories

Badge Holders

Clearly display IDs — from visitor badges to multi-function technology cards — while protecting them during constant use. Badge holders may hold one or more cards, depending on style.

Polyolefin Badge Holders

Constructed of clear polyolefin to eliminate print transfer that can occur in PVC holders. .012" / .3mm thick on the front and back. Slot and chain holes for hanging on a lanyard or strap clip.

Recommended for ID cards produced with dye-sublimation printers.

Premium Badge Holders

Clear holders constructed of heavy-duty, tear-resistant vinyl, .012" / .3mm thick on the front and .030" / .76mm thick on the back.

Slot and chain holes, for hanging on a lanyard or strap clip, or bulldog for clipping on clothing.

Rigid Card Holders

Rigid design protects proximity and smart cards from bending. Cards can be easily removed for magnetic stripe readers or scanners. Designed with thumb notches and slot and chain holes.

Proximity Badge Holders

Flexible vinyl holders handle thicker technology cards or multiple cards without splitting. .020" / .5mm thick on the front and back.

Sealable Badge Holders

Flap or zip-seal vinyl closures help keep out dirt and moisture.
